

# Women in Mathematics: the legacy of Ladyzhenskaya and Oleinik

May 18-20, 2006 • Berkeley, CA

*Organized by: Susan Friedlander, Barbara Keyfitz, Irene Gamba and Krystyna Kuperberg*

***Olga Ladyzhenskaya***

***Olga Oleinik***

As with previous AWM/MSRI workshops, this is a celebration of careers of women in mathematics, on this occasion those of Olga Ladyzhenskaya and Olga Oleinik. Experts in PDE, numerical analysis and mathematical fluid dynamics will lecture about their work which is in the spirit of the achievements of Ladyzhenskaya and Oleinik.

The goals of the Celebration are to assist, encourage, and inspire the junior participants, and to promote the achievements of women in mathematics. Talks and discussions by established mathematicians with careers in government, business, industry and academia will focus on contemporary issues of concern to young mathematicians. There will be many opportunities during the three days of the conference to mix informally and to discuss research and career issues.

There will be poster sessions organized for the junior participants. If you wish to present a poster please submit a title and abstract in the space provided on the registration form.
